HEINELEC®
CIRCUIT PROTECTION

V's

- » Carries 100% of rated current
- » Current sensing rather than thermal sensing
- » Switches both active and neutral poles
- » Can be immediately reset after a fault (No Thermal memory)
- » Tripping stability, unaffected by ambient temperature.
- » Mid Trip handle position indicating RCBO has tripped

SF1EL RCBO

The SF1EL Range of RCBOs are designed for all single-phase commercial, industrial and mining applications requiring high sensitivity earth leakage and precision over-current protection from electrical shock and fire hazards. Don't take a risk by using inferior copies only use the original Heinelec SF1EL - RCBO.
