Slipry Data Loob Cable Blowing Lubricant

New

Excellent lubricity for a wide range of cable types

- » High performance lubricant for cable blowing and pulling applications using communications type cable

Slipry Data Loob Cable Blowing Lubricant >>

Product Overview

Introducing Slegers Slipry Data Loob cable blowing lubricant. Slipry Data Loob is a high performance, pourable lubricant specially recommended for cable blowing & pulling applications using cable with thin insulation such as conventional fibre optic cable, LAN cables, security cables, telephone wires, etc. Perfect for all types of insulation and conduit, it is slow drying and leaves a lubricating film after evaporation. The stable composition of Slipry Data Loob provides maximum lubricity in the toughest environments. The liquid consistency helps to minimise viscous friction and is easy to pour. Slipry Data Loob provides maximum reduction of friction which lessens the chance of light guide cable damage due to high pulling forces.

Features

- » Easy to handle & apply
- » Can be used for cable blowing & pulling applications
- » Compatible with a wide range of cable types including Fibre Optic Cables
- » Slow drying & leaves a residual lubricating film
- » Excellent lubricity & clingability
- » Superior friction reduction, meaning longer cable pulls & blows
- » Non toxic & non flammable
- » Retains lubricity for months after use
- » Proven, effective formula

Installation Techniques

Slipry Data Loob cable blowing lubricant is provided in a squeeze bottle container and is typically applied by intermittently pouring of lubricant into the conduit and spread by blowing a foam carrier (Cat No - FC4, FC5, FC6) through the conduit during cable feeding. This lubricant is not recommended for use in overhead type applications. For these applications it is recommended to use Slipry Gel (Cat No - SSP1, SSP4 or SSP20) which is ideal for any overhead or horizontal cable pull.

Cat No	Description	Contents	Pack Qty	Price ea(\$5)
SPD1	Plastic squeeze container - Slipry Data Loob	1 litre	4	\$14.06
