

Wall Plugs »

The Slegers wall plug is a straight fluted plug that works in a variety of solid materials such as concrete, brick & stone. It is a flush mounted anchor with longitudinal ribs on the anchor body that prevent it from turning during tightening of the screw. This inexpensive anchor comes in different colours for ease of identification of size, and is recommended for light duty static applications and should not be used overhead.

Features

- » Easy installation for light duty applications
- » Fluted ribs on body prevent turning during tightening
- » Used in concrete, block, brick & stone
- » Economical fixing system
- » Colour coded by diameter for easy installation

Applications

- » Electrical fittings
- » Communication systems
- » Downpipes
- » Meter boxes
- » Signs
- » Plumbing accessories
- » Conduit saddles
