

Slegers ChemRange

12 great products for workplace & home.

Introducing the Slegers ChemRange, the latest and one of the most versatile range of chemicals on the market, giving you quick solutions to everyday problems in the workplace or home. The Slegers ChemRange incorporates a wide range of high performance cleaners, universal lubricants, corrosion inhibitors, protective based coatings, marking paints, and specialty products such as the innovative ChemSkinGlove.

Compact and ergonomic in design, the Slegers ChemRange has been developed for easy access in tight spaces and for a clean professional result, even in the most challenging of applications. Each of our Slegers ChemRange products are specifically created and designed to provide a cost effective and reliable solution for a multitude of applications in and around the workplace or home.

ChemSiliconeSpray

Universal Lubricant & Protectant

ChemSiliconeSpray offers superior lubrication and corrosion protection in a quick drying, no mess formula. ChemSiliconeSpray leaves a durable protective coating that revives, lubricates, waterproofs and protects.

- » High performance lubricant
- » Stops squeaks & displaces water
- » Revives, protects & preserves plastic, rubber & vinyl
- » Multi-purpose mould release

225g **SC-SS225**

ChemSkinGlove

Spray-On Skin Protective Barrier

ChemSkinGlove is a revolutionary, non-toxic, non-greasy absorption barrier spray which protects most skin areas from caustic and toxic elements found around the home or workplace.

- » Breathable absorption barrier
- » Perfect for jobs that need finger sensitivity
- » Non-greasy, non-toxic formula
- » Prevents skin irritation

250g **SC-SG250**

ChemWD

Multi-Purpose Maintenance Spray

ChemWD maintenance spray is ideal for reducing friction, loosening and reviving seized or rusted parts, silencing squeaks, sealing out moisture, dissolving grease and offering excellent protection in marine environments.

- » Frees rusted or seized parts
- » Displaces & seals out moisture
- » Prevents rust with built-in corrosion inhibitors
- » Contains a heavy duty lubricant

175g **SC-WD175**

ChemReviveit

Universal Revival Fluid

ChemReviveit is a unique and universal product which works to revive water affected circuitry while providing corrosion protection and lubrication. Its industrial strength allows for use in most heavy duty applications.

- » Industrial strength moisture repellent
- » Superb penetration & lubrication formula
- » Superior built-in corrosion inhibitor
- » Unique formulation for heavy duty applications

225g **SC-RI225**

ChemContactClean

Electrical Cleaning Solvent

ChemContactClean removes contaminants and rapidly evaporates while leaving a light lubricant to maintain smooth operation of moving parts and to help protect against corrosive build up.

- » Precision cleaner & degreaser
- » Added lubricant to reduce wear & tear
- » Removes oxidation residue
- » Non-corrosive & plastic safe

225g **SC-CC225**

ChemDustFree

Premium High Velocity Duster

ChemDustFree is a moisture and bacteria free compressed gas duster that removes dust and particles from circuitry and hard to reach grooves and recesses.

- » High pressure inert gas
- » Removes microscopic dust, lint & foreign particles
- » Safe on plastics
- » Moisture & bacteria free

250g **SC-DF250**

ChemGard

Clear Acrylic Conformal Coating

ChemGard is the perfect protection based coating for all your circuitry needs. Forming a hard, clear bond, ChemGard protects and insulates against high voltage arcing and shorts, resists moisture and fungus.

- » Protects against high voltage arcing & shorts
- » Superior protection in harsh environments
- » Water resistant with built-in UV barrier
- » Excellent in marine & high humidity regions

175g **SC-GD175**

ChemFluxFree

Lead-Free Flux Cleaning Solvent

ChemFluxFree is a slow evaporative solvent specifically formulated for removal of the toughest lead free flux deposits. Its formula is ideal for removing rosin and resin based flux as well as dust, oil, grease and oxide particles.

- » Removes heavy, encrusted & heat degraded flux
- » Removes dust, oil, grease & oxide particles
- » Cleans & dislodges particle build-up
- » General purpose cleaning solvent

225g **SC-FF225**

ChemPureClean

99.8% Pure Isopropanol

ChemPureClean is 99.8% pure isopropanol. Its universal application provides a final rinse that evaporates and leaves surfaces clean and without oily residue. Safe to use on most surfaces.

- » Powerful general purpose cleaner
- » Removes dust, light oil & particle build-up
- » Rapid evaporation without oily residue
- » Perfect for plastic, glass & metallic based surfaces

225g **SC-PC225**

ChemZincOn

98% Pure Zinc Metallic Coating

ChemZincOn is a 98% pure zinc spray that offers a galvanised finish with epoxy binding formula to fuse and guard surfaces against rust and corrosion.

- » Long term corrosion protection & prevention
- » Adheres to all metal surfaces
- » Dries to a tough, hard wearing galvanised finish
- » Use as a protective primer or final coating

300g **SC-ZO300**

ChemSpotMarker

Premium Surface Marking Paint

ChemSpotMarker's fluorescent pink colour produces the superior brilliance required for both close up and long range visibility. Ideal for bitumen, concrete, timber, grass and soil surfaces.

- » Excellent adhesion to most surfaces
- » Trigger cap for easy inverted marking
- » Fast drying, hard wearing
- » Highly weather resistant

350g **SC-PM350**

ChemSpotMarker

Premium Surface Marking Paint

ChemSpotMarker's fluorescent orange colour produces the superior brilliance required for both close up and long range visibility. Ideal for bitumen, concrete, timber, grass and soil surfaces.

- » Excellent adhesion to most surfaces
- » Trigger cap for easy inverted marking
- » Fast drying, hard wearing
- » Highly weather resistant

350g **SC-OM350**
